AK922	Double Bulb Heat	N/A	N/A
AK927	Double Bulb Heat/Fan	70	3.5

What is a Sone? - The sone is an internationally recognized unit of loudness, which simplifies reporting of sound output. The sones translate laboratory decibel readings into numbers that correspond to the way people sense loudness. Double the sone is double the loudness. In everyday terms, one sone is equivalent to the sound of a quiet refrigerator in a quiet kitchen.

CFM - Cubit Feet per Minute. A measurement of how much air flows during a one minute period.
